

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Taxo Driver

App URL: https://play.google.com/store/apps/details?id=ly.tajora.driver

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to gather in-depth, professional feedback on the app. Additionally, we reached out to some of our target users, active drivers, to collect authentic insights and real-world experiences from the intended audience, ensuring diverse feedback.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with the app, providing valuable feedback on usability, feature clarity, and overall functionality. Their insights led to

essential adjustments, such as improving navigation and enhancing the onboarding process, which significantly increased user satisfaction.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for optimized ASO, a dynamic walkthrough for new users, a "Share App" feature, and improved screenshots that showcase app features. Feedback was collected through surveys, direct communication, and usability testing sessions to ensure thorough insights.

---

5) Who is the intended audience for your app?

TAXO Driver is designed for drivers seeking a comprehensive work app to manage ride requests, track earnings, and handle documents efficiently. It caters to both new and experienced drivers who want a user-friendly platform to enhance their ride-hailing experience.

---

6) Describe how your app provides value to the users.

TAXO Driver enables efficient ride management by providing real-time ride requests, earnings tracking, and document management. Users can easily

accept rides, manage their earnings, and handle subscriptions, ensuring a seamless experience that enhances their productivity on the road.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We implemented key changes based on feedback, such as optimizing the app description for ASO, adding a dynamic walkthrough for new users, introducing a "Share App" feature, and enhancing screenshots to better showcase app functionalities, improving overall user experience.

---

9) How did you decide that your app is ready for production?

After thorough testing, incorporating valuable feedback from diverse testers, and addressing critical usability issues, we ensured the app is stable, user-friendly, and fully optimized. These efforts confirm that TAXO Driver is ready for successful deployment on Google Play.

---

10) What did you do differently this time?

This time, we focused on enhancing user engagement through targeted feedback sessions, optimizing app features based on real-world needs, and prioritizing usability improvements. These strategies led to a more refined app experience, ensuring readiness for production access.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
