

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Taxo

App URL: https://play.google.com/store/apps/details?id=ly.tajora.rider

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive and detailed feedback on the app. Additionally, we reached out to some of our target users, including frequent riders and transportation enthusiasts, to gather real-world insights from the intended audience.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged by providing insightful feedback on features, usability, and overall experience. Their suggestions prompted us to enhance

app functionalities, optimize navigation, and improve user comfort, thereby increasing overall satisfaction and engagement with the app.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Feedback highlighted the need for ASO optimization, feature-rich screenshots, and added functionalities like "Share App" and "Rate Your App" options. We collected feedback through surveys and direct communication channels, ensuring a thorough understanding of user needs and preferences.

---

5) Who is the intended audience for your app?

TAXO is designed for users seeking convenient and reliable ride services, including commuters, travelers, and anyone needing transportation. It caters to individuals who prioritize ease of use, transparency in pricing, and real-time tracking of their rides.

---

6) Describe how your app provides value to the users.

TAXO offers a seamless ride-hailing experience, allowing users to request rides quickly, track their vehicles in real-time, and choose flexible payment

options. With detailed ride records and user-friendly features, it enhances convenience and transparency for every ride taken.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

Based on user feedback, we optimized the app description for ASO, enhanced Play Store screenshots to showcase features, and added "Share App" and "Rate Your App" options. We are also exploring a dark mode feature for improved user comfort during nighttime use.

---

9) How did you decide that your app is ready for production?

After extensive testing and feedback incorporation, we ensured that the app is stable, user-friendly, and feature-rich. Addressing critical feedback and enhancing functionalities has positioned the app well for a successful launch on Google Play.

---

10) What did you do differently this time?

This time, we focused on gathering detailed feedback from a diverse group of testers, emphasizing usability and feature enhancement. We prioritized user comfort and app visibility, resulting in a refined product that aligns closely with user expectations and needs.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
